01 PROFESSIONAL SUMMARY

Front-end developer with 10 years of experience building CRM and SaaS platforms, corporate websites, and landing pages. Core stack: React, Vue, Angular, Svelte, Next.js, TypeScript, and Tailwind CSS. Experienced with GraphQL, REST APIs, gRPC, and data visualisation using Chart.js and D3. Selectively applies AI-assisted development workflows — Cursor and Claude Code with context engineering — to maintain high code quality and delivery pace. Focused on shipping products that work correctly in production, not just in review. Comfortable working in fully remote, distributed teams.

02 WORK EXPERIENCE

Front-End Engineer

Calaton Systems

Nov 2025 - Feb 2026

Tampa, Florida, USA - Remote

Developed and maintained financial CRM and SaaS systems for an international client.

Built and iterated on data-dense CRM interfaces handling complex financial workflows

Worked within an established codebase, maintaining quality standards and delivering features to production

Collaborated with backend engineers on API integration and data-layer design

Front-End Developer

Face IT

Feb 2016 - Oct 2025

Zaporizhzhya, Ukraine

Nine-year tenure covering the full range of front-end work: corporate websites, marketing landing pages, and multi-module CRM and SaaS platforms. Responsible for translating design concepts into production-ready interfaces and for long-term maintenance of live products.

Delivered responsive, cross-browser interfaces across React, Vue, Angular, and Svelte projects

Built and maintained CRM and SaaS platforms with complex state management using Redux, Vuex, and Pinia

Integrated REST APIs, GraphQL, and JSON-RPC endpoints; implemented data visualisation layers with Chart.js and D3.js

Established code quality practices including linting, CI/CD pipelines via GitHub Actions and GitLab CI, and systematic cross-browser testing

Set up and managed deployments on Cloudflare Pages and Workers, AWS, and Linux servers

Mentored junior developers and contributed to architecture decisions on new product initiatives

Bachelor of Engineering — Electromechanical Engineering Technology

Zaporizhzhya Polytechnic

2005 - 2010

Zaporizhzhya, Ukraine
